TROG

IN PLAYmation!™

This Video Really Rocks!

PLAYmation...Midway's Revolutionary Animation Technique!

PLAYmation brings fun, unique characters and a whole new world of challenges to the screen! The adventure begins in the Land of OG where up to four players build a maze of bones to steer the Dinos clear of disaster and the hungry, one-eyed caveman TROG!

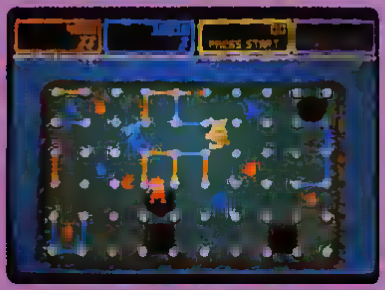
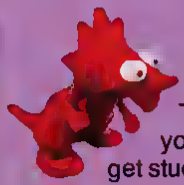
TROG ...The Evolution of a Video Revolution!

Midway's exclusive method of animation, a revolutionary technique called PLAYmation, brings to life a colorful collection of Dinos and the wacky, one-eyed caveman TROG! By modeling and digitizing each and every move, TROG's creators have designed some of the most sophisticated action in video history!



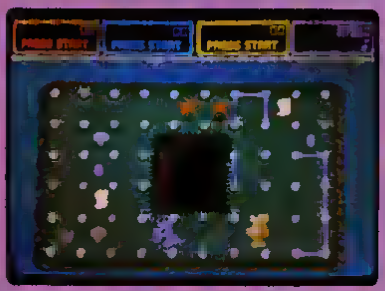


A World of Their Own— With *Minds* of Their Own!

It's a whole new approach to video play! The Dinos think and feel for themselves! Without your guidance, this endangered species is apt to get stuck in tarpools, fall into bottomless pits or walk off the edge of the island! It's up to the player to plan a strategy to collect all his Dino eggs and lead his Dino safely home.

Four Player Simultaneous Action!

One to four players can play at once, or buy in on the action at any time, which means MAMMOTH operator earnings! Players direct not only their own characters, but also have a hand in leading the other characters the right way, wrong way or worse... leading them toward the hungry caveman TROG!



No Two Games Ever the Same!

Saving the Dinos becomes more difficult with every screen! Suddenly, there are blazing fires to avoid, mushrooms that slow the characters down and plantlife that sends them zipping in all directions! Programmed to calculate individual playing abilities, TROG presents challenges suited to match every player's level of expertise!

- Four-Player Simultaneous
- Sensational Characters Created in Midway's Exclusive PLAYmation!
- Every Move Hand-Modeled and Digitized
- Amusing Animation to Entertain All Ages
- Bold New Cabinet Designed to Attract Players
- Upright Dedicated with Super-Size 25" Monitor
- All-New Musical Score with Outrageous Sound Effects
- And The Beginning of a Whole New Video Revolution!
